Re: American Gilsonite Generic
Environmental Assessment

Dear Wilson:

This Division is in the process of preparing a generic assessment for various State leases in the Bonanza area and we are seeking your archeological/historical input to the document.

While the company's plans are not firm for all operations yet, a list of possible locations for mining activity is compiled and enclosed for your review. All of the locations listed are State leases.

We would appreciate your bringing to our attention any known sites on the enclosed locations so that the operator may be made aware of the existence of same and precautions taken and/or salvage of the sites performed.

It is anticipated that work will begin on the statement on June 20th, 1977.

Please let us know if we can be of further assistance in this matter.

Sincerely,

DIVISION OF OIL, GAS, AND MINING

RONALD W. DANIELS
